Focus on Cambodian coffee

The art of roasting coffee beans begins with the green coffee beans (Robusta) that have been skilfully selected by Senteurs d'Angkor company. They carefully select them in the province of Ratanakiri, Northeast of Cambodia, then they roast them with the utmost attention in their workshop.

Robusta coffee has a stronger, harsher taste, with a grain-like overtone and peanutty aftertaste. It contains twice as much caffeine as Arabica beans!
